1 Task 1: Analysis of Symptom Co-occurrence Patterns

There is nothing wrong with second place. Your best effort is all that anyone's asking for. And, if you give your best and you come in second, you come in third, you come in last, it's not about winning or losing. It's about giving it everything you've got. Now, Sam has built a monument to devilry, and chaos. I, deserve second place, I came in second. The only crime that's been committed here is that Oscar and Ally deserve first. We should be applauding them for getting more points. But in this, sick rodeo, this, bizarre, *fucked-up* clown festival that Sam has put together, we're here celebrating, what I can only describe as the sickness at the core of America. And uh, I'm gonna get him, I'm gonna get Sam

2 Task 2: Mining Cancer Feature Patterns

3 Task 3: Open Advanced Task
